A 15 JUL 1946

C.R. 37

EIGHTY-SECOND

ANNUAL REPORT

(ABRIDGED)

of

The

Jessop Hospital for Women, Sheffield.

ESTABLISHED 1864.

Patron—H.R.H. THE DUCHESS OF GLOUCESTER.

1945.

NOTICE TO SUBSCRIBERS, Etc.

To meet the need for economy in the use of paper this Report has been abridged; it is regretted that publication of Lists of Subscriptions, Donations, etc. must be suspended meantime. Those lists may be examined at the Hospital during office hours.

1945

Eighty-second Annual Report

The Board of Management have pleasure in presenting their Eighty-second Annual Report and Statement of Accounts for the year ended 31st December, 1945.

OBITUARY.

It was with a keen sense of loss that the Board placed on record their deep regret at the death of their President Her Grace the Dowager Duchess of Norfolk, Baroness Herries. The Board remember with appreciation the interest Her Grace showed in the welfare of the Hospital generally during the 27 years she was President, and particularly when in 1938 she took an active part in the Foundation Stone-Laying Ceremony inaugurating the large scheme of extensions. The sympathy of the Board was conveyed to the Duke and Duchess in their sad bereavement.

ADDITIONAL BEDS.

With the addition of ten beds each to the Maternity and Gynaecological Departments (the latter for cases requiring radiotherapy), the bed-state at the end of the year had reached 193. Plans are in hand to provide for a further addition of 20 gynaecological beds, which, it is hoped, will be in use before the next Report is issued.

THE WORK OF THE YEAR.

The following statistics relative to the year under review, compared with those of 1944, show how the benefits of the hospital are being made available to an increasing number of patients:—

	IN-PATIENTS.		1945		1944	
	General Wards	Private Maternity Wards	General Wards	Private Maternity Wards	General Wards	Private Maternity Wards
Number of beds available on Dec. 31st	179	14	159	14		
Average number of beds available throughout the year	168.38	14	155.48	14*		
Admissions	3525	246	3280	59		
Infants—						
Live Births	1279	181	1197	41		
Still Births { Booked cases	48	2	54	1		
{ Emergency cases	56	4	37	3		
Admitted with mothers after delivery	91	4	93	—		
Daily average number of patients ..	141.74	10.05	133.02	5.81*		
Daily average number of household (including patients)	289.79		266.25			
Daily average number of infants ..	47.15	8.14	44.04	4.83*		
Average number of days each patient was resident	14.77	15.10	14.86	15.79*		
Operations	1831	51	1715	7

OUT-PATIENTS.

	1945	1944
New Out-Patients ..	5115	4946
Attendances ..	31181	29238

District cases numbered 105 against 186 in 1944.

WAITING LIST.

The number of gynaecological patients awaiting admission on 31st December, 1945, was 1375 against 1033 at the beginning of the year.

ALMONER'S DEPARTMENT.

The Almoner's Department dealt with 3525 in-patients. They are classified as to Recommends, etc., as undernoted :—

SHEFFIELD "1d. in the £" Scheme :

Contributors to the "1d. in the £" Scheme			
(Letters of Introduction) ..	2622	74.38%	} 81.53%
Producing Letters of Application ..	14	.40%	
Paid for by non-contributing Collieries, etc...	39	1.11%	
Paid for by Reciprocal Schemes ..	199	5.64%	
Contributing towards maintenance ..	214	6.07%	
Paid for by Public Authorities (Clinic, Maternity, and Puerperal Sepsis) ..	199	5.64%	
Non-contributors to the "1d. in the £" Scheme			
who paid Maternity Benefit ..	106	3.01%	
Paid for by Ministry of Health (E.M.S. cases) ..	62	1.76	
Maintained free of charge (necessitous poor and those not otherwise paid for) ..	70	1.99%	
	<u>3525</u>	<u>100%</u>	

5 patients brought Jessop Hospital Recommends.

Of the 1,445 maternity patients admitted, 106 paid all, and 1,153 (being contributors to the "1d. in the £" Scheme) a proportion of their National Health Insurance Maternity Benefit.

INCOME AND EXPENDITURE.

Ordinary Income amounted to £54,160, compared with £61,409 the previous year, a decrease of £7,249. The reduction in income is due to a fall of £7,933 in ordinary payments from the "1d in the £" Scheme (more than balanced by a special grant of £10,000 which was credited direct to Reserve Fund—see next section). There was a substantial decrease of £4,155 in contributions under the Government Emergency Hospital Scheme but maintenance fees from private patients showed an increase of £3,184.

Expenditure totalled £72,254 against £59,262, an increase of £12,992. Apart from the higher cost of provisions, drugs

and dressings, due to larger number of patients, the main increases in expenditure are in salaries and wages £3,235 payments towards the cost of the Sheffield National Centre for Radiotherapy £2,485, and installation of new boilers at Norton and other renewals and repairs £3,294.

There was an excess of expenditure over ordinary income amounting to £18,094.

1d. IN THE £ SCHEME.

The year was a highly successful one for the "1d in the £ Scheme," the sum of £333,029 having been contributed by employees and employers. Of that total, £30,082 was received as ordinary income by this hospital and, in addition, a special grant of £10,000 was made for reserve purposes.

In expressing their great appreciation of these substantial contributions, and congratulating all concerned on the excellent result of yet another year's work in the service of the voluntary hospitals, the Board cannot too highly assess the value to the community of this method of serving and financially supporting those hospitals. It seems at the time of writing this Report that the Government's proposals for a National Health Service provide no place for the great contributory schemes as such, and the disappearance of this outlet for voluntary service and giving is one of the effects of the proposals much to be deplored. It is too early as yet to comment further upon this aspect of the National Health Service Bill, but the Board will give their full support to every effort which aims at retaining the opportunities of individuals to serve and support by voluntary methods the hospitals for which they have done so much, and in whose support they have so loyally laboured.

LEGACIES, ETC., AND ENDOWMENTS.

Grateful acknowledgment was made during the year of legacies amounting to £16,951. A list appears in the Balance Sheet.

A bed and a cot were endowed: the bed by the Wardens and Messengers of the City of Sheffield Civil Defence Service, £1,000; and the cot by the British Legion (Women's Section) Sheffield Group, £510 19s. 7d. The Board were glad to welcome representatives of each of those bodies at the hospital to express their great appreciation of the generous donations, and to erect commemorative plates in two of the wards.

LINEN LEAGUE.

As a result of another year's loyal and enthusiastic work by the ladies of the Linen League, garments and linen valued at £645 were provided. This branch of the hospital's activities, under the able guidance of Lady Stephenson, Chairman, and Mrs. Meggitt, an indefatigable Honorary Secretary and

Treasurer, typifies the eagerness with which voluntary workers seize an opportunity to serve and support voluntary institutions. The Board express grateful thanks to all those ladies for their interest and practical support and hope there will be ample opportunity for continuation of their good work in the future.

TEACHING.

Towards the end of the year the Report of a survey of the hospital services of the Sheffield and East Midlands Area was published. The survey was undertaken on behalf of the Ministry of Health by Professor L. G. Parsons, M.D., F.R.C.P., and G. E. Godber, D.M., M.R.C.P., D.P.H. The Report is a lengthy one but two extracts from it confirm the soundness of the policy which the Board have been pursuing in their plans for the future viz :

TEACHING HOSPITALS.

“ In discussing the special centres, reference has been made to Teaching Hospitals but it would be better to refer to teaching centres, since one hospital rarely suffices. It is not our responsibility to advise on medical education, but a medical teaching centre is not only a centre of medical education, it is a centre at which are concentrated the best consultants in the areas. It will, therefore, have the highest repute as a medical consultative centre and other hospital centres in a region would look to it if further advice is needed. We have already stated that we consider that special centres of various kinds should be situated, if possible, at medical teaching centres. In any ideal scheme for medical education and research the main teaching hospitals and medical school should be closely associated, both geographically and academically with the University. Only under these conditions can the medical student mix with students and teachers of other faculties and thus receive the appropriate university training ; the teachers give of their best because of their association with other faculties ; the teaching hospitals obtain from the various university departments the help which is so necessary for patients, medical staff, research workers and students.”

EXTENSION OF THE JESSOP HOSPITAL.

“ The ultimate development of the Jessop Hospital should be to approximately 300 beds providing the principal gynaecological consultant centre for the area. We understand that land is available and we agree with the general lines proposed for full development of this hospital. We have already said that the present

old buildings should not be radically reconstructed, but in due time completely replaced by new building and therefore no great expenditure should be incurred on them. There must be ample provision for the use of this hospital as a consultative out-patient centre. Additional maternity accommodation will probably be urgently needed, and will be one of the earliest developments when new building is possible."

(NOTE :—The Board's policy is to provide pay beds in addition to the 300 beds mentioned above).

Those recommendations, taken in conjunction with the proposals in the National Health Service Bill relative to Teaching Hospitals, emphasised the necessity of pushing forward the plans for extension of the hospital and the resumption of building operations as soon as post-war conditions permit. After due consideration the Board decided that priority must be given to the erection of a Teaching Block in which would be concentrated all the laboratory services, lecture rooms, out-patient clinics, etc., which, together with in-patient accommodation provided or to be provided separately, form the medical school section of the hospital.

Early opportunity was taken to discuss this project with the Ministry of Health who encouraged preparation of plans as soon as possible, and the Board decided to proceed accordingly.

In consultation with the University Departments concerned and the Medical and Technical Staff of the hospital, plans are in course of preparation by the Joint Architects, Messrs. Adams, Holden & Pearson, London, and Mr. J. Mansell Jenkinson. The Board aim at having those plans complete and ready in every way so that when building becomes possible no delay in erection will occur. The hospital will then be more adequately equipped to fulfil its functions as the teaching hospital for gynaecology and obstetrics in association with the University, and the consultative centre for gynaecology for the Sheffield and East Midlands Area.

TRAINING SCHOOLS.

MEDICAL STUDENTS.

During the year 29 Medical Students completed a course in Gynaecology and Obstetrics.

POST-GRADUATE COURSES.

In co-operation with the University, the hospital has agreed to provide courses for practitioners who on recruitment to the Services were being trained as specialists or consultants. The scheme is approved by the Government as part of a general plan for implementing the Goodenough Report.

PUPIL MIDWIVES.

52 pupil midwives completed Part 1 of their training ; 48 sat for the examination. Of those 45 passed and proceeded to Part 2 for completion of training, or to a Health Visitor's Course.

NURSES.

Circulation of Student Nurses within the Combined School comprising the Royal Sheffield Infirmary and Hospital, The Jessop Hospital, and the Children's Hospital, had not commenced by the end of 1945, but the first group were received at this Hospital at the beginning of the current year.

COURSES FOR GAS & AIR ANALGESIA.

Instruction in the administration of gas and air analgesia was given to 19 practising midwives employed by adjacent Local Authorities. 5 Jessop Hospital Midwives also received a course of training.

THE BOARD OF MANAGEMENT.

To fill vacancies on the Board, Captain Mark H. Francis, M.B.E., and Mr. S. Geoffrey Meggitt were elected at the Annual Meeting of Governors, and the Board were glad to welcome these new members.

MEDICAL STAFF.

The Board sincerely hope that the end of the War and the return of Medical Officers from the Forces will ease the strain under which the Honorary Staff have laboured during the past six years. For their devoted service under many difficulties the Board express very sincere thanks to Mr. John Chisholm and Mr. J. Eric Stacey, Honorary Surgeons ; to Mr. Glyn Davies and Mr. Leslie B. Patrick, Honorary Assistant Surgeons ; and they also acknowledge with gratitude the care and attention which Professor Naish gives, as Paediatrician, to the babies born in the hospital or brought to it for treatment.

Thanks are gratefully expressed to other Consultants who from time to time respond to calls upon their services

On completion and opening of the X-Ray Department at the end of the year, Dr. J. L. Grout accepted appointment as Honorary Radiologist. The Board welcome Dr. Grout's addition to the Honorary Staff of the Hospital and express their appreciation of the long and valued service he has given at the Royal Hospital to patients referred for X-Ray from this hospital.

Dr. C. A. S. Hamilton resigned his position as Honorary Anaesthetist on his return from the Forces. Dr. H. L. Willey, who had been acting pro-tem, was appointed to the vacancy.

CHAIR IN CHILD HEALTH.

The establishment by the University of a Chair in Child Health has been decided, and it has been agreed that this hospital shall participate in the proposed arrangement. The Goodenough Report indicates that the teaching of Paediatrics to medical students should include *inter alia* the care and management of new born infants, and it is appreciated that there is a wealth of teaching material of that nature in this hospital, where the students already receive their training in obstetrics.

NATIONAL RADIUM COMMISSION.

Under the auspices of the National Radium Commission a conference was held at the University in April when there was set up a Provisional Committee for the East Midlands, to formulate arrangements to secure that facilities for the treatment of persons suffering from cancer should be adequate for the needs of the Area. The hospital is represented on the Provisional Committee which has appointed a drafting committee to prepare a Scheme for future consideration.

NURSING AND DOMESTIC STAFF.

The Board have pleasure in recording their appreciation of another year of efficient service by the nurses and domestic staff under the able control of the Matron, Miss N. W. Horton. It is hoped that the return to civilian employment of women previously engaged in other forms of National Service will soon reduce the shortage which has been experienced by most hospitals.

The Assistant Matron and Midwifery Teacher, Miss E. Carter, was appointed Matron of Liverpool Maternity Hospital and took up her new duties with the good wishes of this Board. Miss G. Spowart, Sister Tutor, Elsie Inglis Maternity Hospital, Edinburgh, was appointed to fill the vacancy.

The Catering Department, in charge of Miss S. M. Harrison, Food Supervisor and Dietitian, continued to give excellent service under the handicap of inadequate kitchen accommodation which the Board hope to be able to improve before long.

NATIONAL SERVICE.

The Board welcomed back from their various spheres of active service the following members of the staff :—

Lt. Col. R. E. Pleasance (Honorary Anaesthetist).
 Lt. Col. C. A. S. Hamilton (Honorary Anaesthetist).
 Lt. Col. H. J. Green (Registrar).
 J. Andrews (Porter).
 W. Shelton (Porter).
 W. Henderson, M.M. (Porter).
 N. Taylor (Porter).

At the end of the year, E. G. Sainsbury (Assistant Secretary). A. Mead and R. G. Hodgins (Laboratory Assistants) were still on Service.

THANKS.

The Board have had pleasure during the year in conveying thanks to many who by gifts in money and in kind, or by personal services, helped forward the work of the hospital or added to the comfort and well-being of patients and staff. Although detailed mention is still impossible owing to the continued need for paper economy, the Board wish very sincerely to record their appreciation in this Report.

THE FUTURE.

The Government intend to provide a National Health Service, towards the cost of which everyone will contribute, and whose benefits will be available to all who wish to participate. The establishment of a National Health Service is not a matter of politics—all parties are in favour of it. Not all, however, are in agreement with the method of achieving the object. So far as the hospital part of the service is concerned there are two major points at issue—ownership and management.

Those responsible for the government of the voluntary hospitals are convinced that transfer of ownership to the Government (nationalisation) is unnecessary to achieve a National Health Service; that, in fact, such a transfer would be harmful to the service as it would destroy the entity of the hospitals and thus discourage local interest in their continued efficiency and progress.

Management, to be real and effective, should be local and personal. No hospital can be efficiently controlled by a remotely situated body of governors who may not even know the geography of the hospital, much less the medical, nursing and lay staff who comprise its human entity.

Even if transfer of ownership of the hospital buildings has to be conceded therefore, it is of paramount importance that every hospital—teaching and non-teaching—should have its own individual management board made up primarily of people who know the hospital, its traditions, its internal needs, its patients and its staff. Only in this way will local interest and service be maintained, and only by the retention of local interest and service will the human and personal aspect of the national hospital service be assured.

It is the policy of this Board to support that view and to advance its achievement, whilst at the same time welcoming any proposals which aim at co-ordination of service, policy and

development. The necessity of such internal and local autonomy is so universally recognised by all sections of lay and medical hospital interests, that it is hoped the Government, during the passage of the National Health Service Bill, will meet the claim and adequately provide for it.

On behalf of the Board of Management,

20th May, 1946.

JAMES HENDERSON, Chairman.

Mr. James Henderson, Chairman of the Board for nearly 21 years, intimated that he did not wish to be re-elected Chairman after the Annual Meeting. The Board received Mr. Henderson's resignation with very great regret but fully appreciated his desire, and entitlement, now to give up the responsible Office he had held so long through such strenuous times. They have placed high appreciation of his services on record. Mr. Henderson remains a member of the Board.

The Board, at their first Meeting after the Annual Meeting, elected Mr. Thos. G. Sorby Chairman for the ensuing year.

PRIVATE MATERNITY WARDS.

(NOTE.—*Pay beds are not intended for those who can afford full nursing home charges*).

Extracts from Regulations and Charges.

Patients are admitted only upon the recommendation of Members of the Honorary Surgical Staff of the Hospital. Consultation fees are a matter for arrangement between the Surgeon and the patient.

The hospital charge is at the rate of Eight Guineas per week (day of admission and day of discharge counting as one). This includes full maintenance, all necessary nursing, and other normal services but not professional fees. (The hospital does not undertake the laundering of patients' personal clothing. Baby clothing will be provided by the Hospital for use during the patients' stay).

The Surgeon's fee which is a matter for arrangement between the Surgeon and the patient, will not exceed Twenty Guineas. The fee will cover all necessary professional charges, except the fees of other Consultants which will be payable by the patient in addition should the services of other Consultants be required.

During the first week after confinement a patient may be visited only by her husband (or, in his absence, by a near relative nominated by the patient and approved by the Sister-in-Charge) ONCE DAILY between 3 and 4 p.m., OR between 7.30 and 8.30 p.m.

Afterwards visitors may see patients (unless visiting is prohibited in any particular case by the Surgeon concerned) daily from 3 to 4 p.m. A patient may also be visited by her husband or, in his absence, by a near relative from 7.30 to 8.30 p.m.

Only one visitor at a time will be permitted. Children under twelve years of age are not allowed to visit patients. The Board reserves the right to close the Wards to visitors at any time.

A patient's own doctor may visit her at any time, provided such visit does not interfere with the work of the hospital.

Patients may be visited by any Clergyman or Minister of Religion they desire at any time, provided such visit does not interfere with the work of the hospital.

Patients and their visitors must conform to the rules and regulations of the hospital.

The Board reserves the right, which they may exercise at any time without assigning any reason, to terminate the stay in hospital of any patient; in the event of a patient being required to leave, the maintenance charge for any unexpired period of payment will be refunded to her.
